Washington, DC 20515

The Honorable Rosa DeLauro
Ranking Member
House Committee on Appropriations
1036 Longworth HOB
Washington, DC 20515

Dear Chairman Cole and Ranking Member DeLauro:

I am requesting funding for the "University of Louisville Practice-Based Research Network" project in fiscal year 2027. The entity to receive funding for this project is the University of Louisville located at 2301 S 3rd St, Louisville, Kentucky 40292.

This funding will allow the University of Louisville to acquire capital equipment including high-performance computing servers, secure data storage, and networking and security hardware to enhance access to clinical medical data and establish a regional research infrastructure for medical research. This is a valuable use of taxpayer funds because this project will support economic development, improve health outcomes, and advance NIST's core mission.

This project has a federal nexus because it is consistent with, and supportive of, NIST's mission and aligned with the functions and activities described in section 272 of title 15, United States Code.

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

Morgan McGarvey
Member of Congress
