The Honorable Rosa DeLauro
Ranking Member
House Committee on Appropriations
1036 Longworth HOB
Washington, DC 20515

Dear Chairman Cole and Ranking Member DeLauro:

I am requesting funding for the Odor Control Improvements project in Fiscal Year 2025. The entity to receive funding for this project is Louisville-Jefferson County Metropolitan Sewer District located at 700 W. Liberty St., Louisville, KY 40203.

The funding would be used for infrastructure upgrades to hundreds of catch basins in Louisville's Russell neighborhood. These upgrades to Louisville's 100-150 year old combined sewer system will address the persistent issue of sewer odors caused by wastewater flows and drying out of catch basin traps during dry periods. The project is an appropriate use of taxpayer funds because upgrading catch basins will improve quality of life and will have a positive impact on wastewater quality within the combined sewer system. By replacing this aging infrastructure, the grantee will be able to accomplish EPA Nine Minimum Controls (NMC) and Capacity Management Operations and Maintenance (CMOM) guidelines for control of solids and floatables and system/infrastructure maintenance.

This project has a federal nexus because the project supports activities under Title VI of the Clean Water Act, 33 U.S.C. 1381 et seq.

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

The Honorable Morgan McGarvey
Member of Congress
